## Caring for Baby **During Hot Spells**

Be watchful of food and keep bowels open with Dr. Caldwell's Syrup Pepsin

THE young mother soon learns from experience that summer days are often days that try her patience. The heat makes baby peevish, restless and cross. Foods that in colder weather were easily digested, now seem to cause distress.

Whether the milk or the gruel is at fault, see that the bowels move regularly. There is nothing that creates greater discomfort in the summer than constipation. It heats the blood and causes nervousness, headache, fever, colds and a host of minor ills. In these little ailments it is always well to suspect constipation and give half a teaspoonful of Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin, and the most ideal medicine you can give a baby. It is mild and gentle in action, never gripes and tastes good.

Mothers have had remarkable success with Syrhp Fersin. Mrs. C. M. Newton of 2430 E. Third St., Dayton, Ohio, has a son who was constipated from birth. She tried many medicines and gave warm water injections every evening for weeks, without benefit. Then she boughf a bottle of Dr. Caldwell's Syrup Persin at a drug store, and it proved effective at once. The boy is now seven, and has not been constipated since. Wherever there is a baby these hot days there should be a bottle of Syrup l'epsin.

FREE Millions of people of all ages suffer from occasional or chronic constitution. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought atdrug stores last year, the largest sale in the world
